

Diocese of Southwell & Nottingham

Constitution of the Multi Academy Trust

The Trust and its officers will support and promote each Partner Academy as they retain and develop their unique identity, traditions and role within their local community. Church of England partner academies promote and develop a Christian ethos through the four central values of wisdom, hope, community and dignity.

Retain and develop a unique identity

Deeply rooted in Christian faith, we develop values of
 Wisdom
 Hope
 Community
 Dignity

Improve outcomes for academies

The Trust and its officers will work openly alongside partner academies to improve outcomes across SNMAT academies, harnessing the skills and talent within SNMAT to promote success. Colleagues working beyond their 'home' academy will do so with the approval of their local governing body.

Commit to adoption of operational policies

Partner academies commit to the adoption and annual review of a suite of operational policies. These policies are created to support the effectiveness of the academy and assure legal compliance. Pedagogical policies remain unique to each academy.
